

(b) If the Inspector General determines that the complaint merits further investigation, the Inspector General shall notify the complainant, contractor, and head of the contracting activity. The Inspector General shall conduct an investigation and provide a written report of findings to the head of the agency or designee.

(c) Upon completion of the investigation, the head of the agency or designee shall ensure that the Inspector General provides the report of findings to—

(1) The complainant and any person acting on the complainant's behalf;

(2) The contractor alleged to have committed the violation; and

(3) The head of the contracting activity.

(d) The complainant and contractor shall be afforded the opportunity to submit a written response to the report of findings within 30 days to the head of the agency or designee. Extensions of time to file a written response may be granted by the head of the agency or designee.

(e) At any time, the head of the agency or designee may request additional investigative work be done on the complaint.

3.906 Remedies.

(a) If the head of the agency or designee determines that a contractor has subjected one of its employees to a reprisal for providing information to a Member of Congress, or an authorized official of an agency or of the Department of Justice, the head of the agency or designee may take one or more of the following actions:

(1) Order the contractor to take affirmative action to abate the reprisal.

(2) Order the contractor to reinstate the person to the position that the person held before the reprisal, together with the compensation (including back pay), employment benefits, and other terms and conditions of employment that would apply to the person in that position if the reprisal had not been taken.

(3) Order the contractor to pay the complainant an amount equal to the aggregate amount of all costs and expenses (including attorneys' fees and expert witnesses' fees) that were rea-

sonably incurred by the complainant for, or in connection with, bringing the complaint regarding the reprisal.

(b) Whenever a contractor fails to comply with an order, the head of the agency or designee shall request the Department of Justice to file an action for enforcement of such order in the United States district court for a district in which the reprisal was found to have occurred. In any action brought under this section, the court may grant appropriate relief, including injunctive relief and compensatory and exemplary damages.

(c) Any person adversely affected or aggrieved by an order issued under this section may obtain review of the order's conformance with the law, and this subpart, in the United States Court of Appeals for a circuit in which the reprisal is alleged in the order to have occurred. No petition seeking such review may be filed more than 60 days after issuance of the order by the head of the agency or designee. Review shall conform to Chapter 7 of Title 5, United States Code.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 63 FR 58592, Oct. 30, 1998, unless otherwise noted.

4.500 Scope of subpart.

This subpart provides policy and procedures for the establishment and use of electronic commerce in Federal acquisition as required by Section 30 of the Office of Federal Procurement Policy (OFPP) Act (41 U.S.C. 426).

4.501 [Reserved]**4.502 Policy.**

(a) The Federal Government shall use electronic commerce whenever practicable or cost-effective. The use of terms commonly associated with paper transactions (e.g., “copy,” “document,” “page,” “printed,” “sealed envelope,” and “stamped”) shall not be interpreted to restrict the use of electronic commerce. Contracting officers may supplement electronic trans-

actions by using other media to meet the requirements of any contract action governed by the FAR (e.g., transmit hard copy of drawings).

(b) Agencies may exercise broad discretion in selecting the hardware and software that will be used in conducting electronic commerce. However, as required by Section 30 of the OFPP Act (41 U.S.C. 426), the head of each agency, after consulting with the Administrator of OFPP, shall ensure that systems, technologies, procedures, and processes used by the agency to conduct electronic commerce—

(1) Are implemented uniformly throughout the agency, to the maximum extent practicable;

(2) Are implemented only after considering the full or partial use of existing infrastructures, (e.g., the Federal Acquisition Computer Network (FACNET));

(3) Facilitate access to Government acquisition opportunities by small business concerns, small disadvantaged business concerns, women-owned, veteran-owned, HUBZone, and service-disabled veteran-owned small business concerns;

(4) Include a single means of providing widespread public notice of acquisition opportunities through the Governmentwide point of entry and a means of responding to notices or solicitations electronically; and

(5) Comply with nationally and internationally recognized standards that broaden interoperability and ease the electronic interchange of information, such as standards established by the National Institute of Standards and Technology.

(c) Before using electronic commerce, the agency head shall ensure that the agency systems are capable of ensuring authentication and confidentiality commensurate with the risk and magnitude of the harm from loss, misuse, or unauthorized access to or modification of the information.

(d) Agencies may accept electronic signatures and records in connection with Government contracts.

Subpart 4.6—Contract Reporting

4.600 Scope of subpart.

This subpart prescribes uniform reporting requirements for the Federal Procurement Data System (FPDS).

4.601 Record requirements.

(a) Each executive agency shall establish and maintain for a period of 5 years a computer file, by fiscal year, containing unclassified records of all procurements exceeding \$3,000. This file shall be accessible to the public using FPDS-NG.

(b) With respect to each procurement carried out using competitive procedures, agencies shall be able to access from the computer file, as a minimum, the following information:

- (1) The date of contract award.
- (2) Information identifying the source to whom the contract was awarded.
- (3) The property or services obtained by the Government under the procurement.
- (4) The total cost of the procurement.
- (5) Those procurements which result in the submission of a single bid or proposal so that they can be separately categorized and designated non-competitive procurements using competitive procedures.

(c) In addition to paragraph (b) of this section with respect to each procurement carried out using procedures other than competitive procedures, agencies shall be able to access—

- (1) The reason under subpart 6.3 for the use of such procedures; and
- (2) The identity of the organization or activity which conducted the procurement.

(d) In addition to the information described in paragraphs (b) and (c) of this section, for procurements in excess of \$3,000, agencies shall be able to access information on the following:

- (1) Awards to small disadvantaged businesses using either set-asides or full and open competition.
- (2) Awards to business concerns owned and controlled by women.
- (3) The number of offers received in response to a solicitation.
- (4) Task or delivery order contracts.
- (5) Contracts for the acquisition of commercial items.

(6) Contracts or task orders treated as commercial items pursuant to 12.102(g).

(e) In addition to the information described in paragraphs (b), (c), and (d) of this section, agencies must be able to access information from the computer file to identify bundled contracts with a total contract value, including all options, exceeding \$5.5 million.

(f) Agencies must transmit this information to the Federal Procurement Data System in accordance with its procedures.

[50 FR 52429, Dec. 23, 1985, as amended at 52 FR 19802, May 27, 1987; 60 FR 42653, Aug. 16, 1995; 64 FR 72442, Dec. 27, 1999; 68 FR 69249, Dec. 11, 2003; 69 FR 34227, June 18, 2004; 71 FR 57365, Sept. 28, 2006]

4.602 Federal Procurement Data System.

(a) The FPDS provides a comprehensive mechanism for assembling, organizing, and presenting contract placement data for the Federal Government. Federal agencies will now report data directly to the Federal Procurement Data System—Next Generation (FPDS-NG), which collects, processes, and disseminates official statistical data on Federal contracting. The data provide—

(1) A basis for recurring and special reports to the President, the Congress, the Government Accountability Office, Federal executive agencies, and the general public;

(2) A means of measuring and assessing the impact of Federal contracting on the Nation's economy and the extent to which small, veteran-owned small, service-disabled veteran-owned small, HUBZone small, small disadvantaged, and women-owned small business concerns are sharing in Federal contracts; and

(3) Information for other policy and management control purposes, and for public access.

(b) The FPDS Web site, <https://www.fpds.gov>, provides instructions for submitting data. It also provides a complete list of departments, agencies, and other entities that submit data to the FPDS, as well as technical and end-user guidance, and a computer-based tutorial.

(c)(1) Data collection points in each agency shall submit FPDS-required data on contract actions directly to FPDS-NG. Agencies must report all transactions over \$3,000 and modifications to those transactions regardless of dollar value.

(2) Agencies participating under the Small Business Competitiveness Demonstration Program (see Subpart 19.10) shall report as an individual contract action all awards, regardless of dollar value, in the designated industry groups.

(3) Agencies may choose to report transactions at or below \$3,000, including those made using the Government-wide commercial purchase card, except as provided in paragraph (c)(2) of this section.

(d) The contracting officer must identify and report (if it is not pre-populated by the Central Contractor Registration (CCR) database), a Contractor Identification Number for each successful offeror. A Data Universal Numbering System (DUNS) number, which is a nine-digit number assigned by Dun and Bradstreet Information Services to an establishment, is the Contractor Identification Number for Federal contractors. The DUNS number reported must identify the successful offeror's name and address exactly as stated in the offer and resultant contract. The contracting officer must ask the offeror to provide its DUNS number by using either the provision prescribed in paragraph (a) of 4.603 or the FAR clause prescribed at 4.1104. If the successful offeror does not provide its number, the contracting officer must contact the offeror and assist them in obtaining the DUNS number.

(e) *Unique Procurement Instrument Identifier (PIID)*. (1) The FPDS requires that each reporting agency assign a unique identifier for every contract, purchase order, BOA, Basic Agreement, and BPA reported to FPDS. Such identifiers shall comply with the contract numbering guidelines established by the Joint Financial Management Improvement Project. The PIID shall consist of alpha characters in the first positions to indicate the agency, followed by alphanumeric characters identifying bureau, offices, or other administrative subdivisions. The last portion

of the PIID shall be numbered sequentially. The PIID may include other elements, as appropriate, such as fiscal year. Delivery orders, task orders, and call numbers must be unique in combination with the basic reference contract vehicle identifier. When the basic reference contract is available for multi-agency use (GWAC, Federal Supply Schedule contract, etc.), an ordering agency shall use the same agency identification prefix for its delivery orders, task orders, and call numbers as it uses for its contractual instruments.

(2) Agencies are required to have in place, no later than October 1, 2003, a process that will ensure that each PIID reported to FPDS is unique, Governmentwide, and will remain so for at least 20 years from the date of contract award. To eliminate the possibility of duplication between agencies, agencies must submit their proposed identifier to the Federal Procurement Data Center, which will maintain a registry of the identifiers on the FPDC website and validate their use in all transactions.

(f) When the contracting office receives written notification that a contractor has changed its size status in accordance with the clause at 52.219-28, Post-Award Small Business Program Rerepresentation, the contracting officer must submit a modification contract action report to ensure that the updated size status is entered in FPDS-NG.

Subpart 4.7—Contractor Records Retention

4.700 Scope of subpart.

This subpart provides policies and procedures for retention of records by contractors to meet the records review requirements of the Government. In this subpart, the terms “contracts” and “contractors” include “subcontracts” and “subcontractors.”

4.701 Purpose.

The purpose of this subpart is to generally describe records retention requirements and to allow reductions in the retention period for specific classes of records under prescribed circumstances.

4.702 Applicability.

(a) This subpart applies to records generated under contracts that contain one of the following clauses:

(1) Audit and Records—Sealed Bidding (52.214-26).

(2) Audit and Records—Negotiation (52.215-2).

(b) This subpart is not mandatory on Department of Energy contracts for which the Comptroller General allows alternative records retention periods. Apart from this exception, this subpart applies to record retention periods under contracts that are subject to Chapter 137, Title 10, U.S.C., or 40 U.S.C. 101, *et seq.*

48 CFR Ch. 1 (10-1-07 Edition)

4.703 Policy.

(a) Except as stated in 4.703(b), contractors shall make available records, which includes books, documents, accounting procedures and practices, and other data, regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form, and other supporting evidence to satisfy contract negotiation, administration, and audit requirements of the contracting agencies and the Comptroller General for (1) 3 years after final payment or, for certain records, (2) the period specified in 4.705 through 4.705-3, whichever of these periods expires first.

(b) Contractors shall make available the foregoing records and supporting evidence for a longer period of time than is required in 4.703(a) if—

(1) A retention period longer than that cited in 4.703(a) is specified in any contract clause; or

(2) The contractor, for its own purposes, retains the foregoing records and supporting evidence for a longer period. Under this circumstance, the retention period shall be the period of the contractor's retention or 3 years after final payment, whichever period expires first.

(3) The contractor does not meet the original due date for submission of final indirect cost rate proposals specified in subparagraph (d)(2) of the clause at 52.216-7, Allowable Cost and Payment. Under these circumstances, the retention periods in 4.705 shall be automatically extended one day for each day the proposal is not submitted after the original due date.

(c) Nothing in this section shall be construed to preclude a contractor from duplicating or storing original records in electronic form unless they contain significant information not shown on the record copy. Original records need not be maintained or produced in an audit if the contractor or subcontractor provides photographic or electronic images of the original records and meets the following requirements:

(1) The contractor or subcontractor has established procedures to ensure that the imaging process preserves accurate images of the original records, including signatures and other written

Federal Acquisition Regulation

4.705-1

or graphic images, and that the imaging process is reliable and secure so as to maintain the integrity of the records.

(2) The contractor or subcontractor maintains an effective indexing system to permit timely and convenient access to the imaged records.

(3) The contractor or subcontractor retains the original records for a minimum of one year after imaging to permit periodic validation of the imaging systems.

(d) If the information described in paragraph (a) of this section is maintained on a computer, contractors shall retain the computer data on a reliable medium for the time periods prescribed. Contractors may transfer computer data in machine readable form from one reliable computer medium to another. Contractors' computer data retention and transfer procedures shall maintain the integrity, reliability, and security of the original computer data. Contractors shall also retain an audit trail describing the data transfer. For the record retention time periods prescribed, contractors shall not destroy, discard, delete, or write over such computer data.

[48 FR 42113, Sept. 19, 1983, as amended at 51 FR 2649, Jan. 17, 1986; 53 FR 43388, Oct. 26, 1988; 54 FR 48982, Nov. 28, 1989; 59 FR 67015, Dec. 28, 1994; 60 FR 42650, Aug. 16, 1995; 62 FR 64915, Dec. 9, 1997; 72 FR 27383, May 15, 2007]

4.704 Calculation of retention periods.

(a) The retention periods in 4.705 are calculated from the end of the contractor's fiscal year in which an entry is made charging or allocating a cost to a Government contract or subcontract. If a specific record contains a series of entries, the retention period is calculated from the end of the contractor's fiscal year in which the final entry is made. The contractor should cut off the records in annual blocks and retain them for block disposal under the prescribed retention periods.

(b) When records generated during a prior contract are relied upon by a contractor for cost or pricing data in negotiating a succeeding contract, the prescribed periods shall run from the date of the succeeding contract.

(c) If two or more of the record categories described in 4.705 are interfiled

and screening for disposal is not practical, the contractor shall retain the entire record series for the longest period prescribed for any category of records.

4.705 Specific retention periods.

The contractor shall retain the records identified in 4.705-1 through 4.705-3 for the periods designated, provided retention is required under 4.702. Records are identified in this subpart in terms of their purpose or use and not by specific name or form number. Although the descriptive identifications may not conform to normal contractor usage or filing practices, these identifications apply to all contractor records that come within the description.

[65 FR 36022, June 6, 2000]

4.801 General.

(a) The head of each office performing contracting, contract administration, or paying functions shall establish files containing the records of all contractual actions.

(b) The documentation in the files (see 4.803) shall be sufficient to constitute a complete history of the transaction for the purpose of—

(1) Providing a complete background as a basis for informed decisions at each step in the acquisition process;

(2) Supporting actions taken;

(3) Providing information for reviews and investigations; and

(4) Furnishing essential facts in the event of litigation or congressional inquiries.

(c) The files to be established include—

(1) A file for cancelled solicitations;

(2) A file for each contract; and

(3) A file such as a contractor general file, containing documents relating—for example—to (i) no specific contract, (ii) more than one contract, or (iii) the contractor in a general way (e.g., contractor's management systems, past performance, or capabilities).

4.802 Contract files.

(a) A contract file should generally consist of—

(1) The contracting office contract file, that documents the basis for the acquisition and the award, the assignment of contract administration (including payment responsibilities), and any subsequent actions taken by the contracting office;

(2) The contract administration office contract file, that documents actions reflecting the basis for and the performance of contract administration responsibilities; and

(3) The paying office contract file, that documents actions prerequisite to, substantiating, and reflecting contract payments.

(b) Normally, each file should be kept separately; however, if appropriate, any or all of the files may be combined; e.g., if all functions or any combination of the functions are performed by the same office.

(c) Files must be maintained at organizational levels that ensure—

(1) Effective documentation of contract actions;

(2) Ready accessibility to principal users;

(3) Minimal establishment of duplicate and working files;

(4) The safeguarding of classified documents; and

(5) Conformance with agency regulations for file location and maintenance.

(d) If the contract files or file segments are decentralized (e.g., by type or function) to various organizational elements or to other outside offices, responsibility for their maintenance must be assigned. A central control and, if needed, a locator system should be established to ensure the ability to locate promptly any contract files.

(e) Contents of contract files that are contractor bid or proposal information or source selection information as defined in 2.101 must be protected from disclosure to unauthorized persons (see 3.104-4).

(f) Agencies may retain contract files in any medium (paper, electronic, microfilm, etc.) or any combination of media, as long as the requirements of this subpart are satisfied.

4.804-1 Closeout by the office administering the contract.

(a) Except as provided in paragraph (c) below, time standards for closing out contract files are as follows:

(1) Files for contracts using simplified acquisition procedures should be considered closed when the contracting officer receives evidence of receipt of property and final payment, unless otherwise specified by agency regulations.

(2) Files for firm-fixed-price contracts, other than those using simplified acquisition procedures, should be closed within 6 months after the date on which the contracting officer receives evidence of physical completion.

(3) Files for contracts requiring settlement of indirect cost rates should be closed within 36 months of the month in which the contracting officer receives evidence of physical completion.

(4) Files for all other contracts should be closed within 20 months of the month in which the contracting officer receives evidence of physical completion.

However, these closeout actions may be modified to reflect the extent of administration that has been performed. Quick closeout procedures (see 42.708) should be used, when appropriate, to reduce administrative costs and to enable deobligation of excess funds.

(c) A contract file shall not be closed if (1) the contract is in litigation or under appeal, or (2) in the case of a termination, all termination actions have not been completed.

[48 FR 42113, Sept. 19, 1983, as amended at 54 FR 34752, Aug. 21, 1989; 60 FR 34746, July 3, 1995]

4.804-5 Procedures for closing out contract files.

(a) The contract administration office is responsible for initiating (automated or manual) administrative closeout of the contract after receiving evidence of its physical completion. At the outset of this process, the contract administration office must review the

 - (14) Contractor's final invoice has been submitted; and
 - (15) Contract funds review is completed and excess funds deobligated.

(1) The signed original is placed in the contracting office contract file (or forwarded to the contracting office for placement in the files if the contract administration office is different from the contracting office); and

[48 FR 42113, Sept. 19, 1983, as amended at 54 FR 34752, Aug. 21, 1989; 64 FR 72445, Dec. 27, 1999]

4.805 Storage, handling, and disposal of contract files.

(a) Agencies must prescribe procedures for the handling, storing, and disposing of contract files. These procedures must take into account documents held in all types of media, including microfilm and various electronic media. Agencies may change the original medium to facilitate storage as long as the requirements of Part 4, law, and other regulations are satisfied. The process used to create and store records must record and reproduce the original document, including signatures and other written and graphic images completely, accurately, and clearly. Data transfer, storage, and retrieval procedures must protect the original data from alteration. Unless law or other regulations require signed originals to be kept, they may be destroyed after the responsible agency official verifies that record copies on alternate media and copies reproduced from the record copy are accurate, complete, and clear representations of the originals. Agency procedures for contract file disposal must include provisions that the documents specified in paragraph (b) of this section may not be destroyed before the times indicated, and may be retained longer if the responsible agency official determines that the files have future value to the Government. When original documents have been converted to alternate media for storage, the requirements in paragraph (b) of this section

Federal Acquisition Regulation

4.900

also apply to the record copies in the alternate media.

(b) If administrative records are mixed with program records and cannot be economically segregated, the entire file should be kept for the period of time approved for the program records. Similarly, if documents described in the following table are part of a subject or case file that documents activities that are not described in the table, they should be treated in the same manner as the files of which they are a part. The retention periods for acquisitions at or below the simplified acquisition threshold also apply to acquisitions conducted prior to July 3, 1995, that used small purchase procedures. The retention periods for acquisitions above the simplified acquisition threshold also apply to acquisitions conducted prior to July 3, 1995, that used other than small purchase procedures.

This subpart provides policies and procedures for obtaining—

4.901

(a) Taxpayer Identification Number (TIN) information that may be used for debt collection purposes; and

(b) Contract information and payment information for submittal to the payment office for Internal Revenue Service (IRS) reporting purposes.

4.901 Definition.

(b) *Information reporting to the IRS*. The TIN is also required for Government reporting of certain contract information (see 4.903) and payment information (see 4.904) to the IRS.

4.903 Reporting contract information to the IRS.

(a) 26 U.S.C. 6050M, as implemented in 26 CFR, requires heads of Federal executive agencies to report certain information to the IRS.

(b)(1) The required information applies to contract modifications—

(i) Increasing the amount of a contract awarded before January 1, 1989, by \$50,000 or more; and

(ii) Entered into on or after April 1, 1990.

(2) The reporting requirement also applies to certain contracts and modifications thereto in excess of \$25,000 entered into on or after January 1, 1989.

(c) The information to report is—

48 CFR Ch. 1 (10–1–07 Edition)

(1) Name, address, and TIN of the contractor;

(2) Name and TIN of the common parent (if any);

(3) Date of the contract action;

(4) Amount obligated on the contract action; and

(5) Estimated contract completion date.

(d) Transmit the information to the IRS through the Federal Procurement Data System (see Subpart 4.6 and implementing instructions).

4.904 Reporting payment information to the IRS.

26 U.S.C. 6041 and 6041A, as implemented in 26 CFR, in part, require payors, including Government agencies, to report to the IRS, on Form 1099, payments made to certain contractors. 26 U.S.C. 6109 requires a contractor to provide its TIN if a Form 1099 is required. The payment office is responsible for submitting reports to the IRS.

4.905 Solicitation provision.

The contracting officer shall insert the provision at 52.204–3, Taxpayer Identification, in solicitations that—

(a) Do not include the clause at 52.204–7, Central Contractor Registration; and

(b) Are not conducted under the procedures of part 12.

Subpart 4.10—Administrative Matters

SOURCE: 62 FR 51230, Sept. 30, 1997, unless otherwise noted.

4.1001 Policy.

Contracts may identify the items or services to be acquired as separately identified line items. Contract line items should provide unit prices or lump sum prices for separately identifiable contract deliverables, and associated delivery schedules or performance periods. Line items may be further subdivided or stratified for administrative purposes (e.g., to provide for traceable accounting classification citations).

Subpart 4.11—Central Contractor Registration

SOURCE: 68 FR 56672, Oct. 1, 2003, unless otherwise noted.

4.1100 Scope.

This subpart prescribes policies and procedures for requiring contractor registration in the Central Contractor Registration (CCR) database, a part of the Business Partner Network (BPN) to—

(a) Increase visibility of vendor sources (including their geographical locations) for specific supplies and services; and

(b) Establish a common source of vendor data for the Government.

4.1101 Definition.

As used in this subpart—

Agreement means basic agreement, basic ordering agreement, or blanket purchase agreement.

[48 FR 42113, Sept. 19, 1983, as amended at 69 FR 76345, Dec. 20, 2004]

4.1102 Policy.

(a) Prospective contractors shall be registered in the CCR database prior to award of a contract or agreement, except for—

(1) Purchases that use a Government-wide commercial purchase card as both the purchasing and payment mechanism, as opposed to using the purchase card only as a payment method;

(2) Classified contracts (see 2.101) when registration in the CCR database, or use of CCR data, could compromise the safeguarding of classified information or national security;

(3) Contracts awarded by—

(i) Deployed contracting officers in the course of military operations, including, but not limited to, contingency operations as defined in 10 U.S.C. 101(a)(13) or humanitarian or peace-keeping operations as defined in 10 U.S.C. 2302(7); or

(ii) Contracting officers in the conduct of emergency operations, such as responses to natural or environmental disasters or national or civil emergencies, e.g., Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121);

(4) Contracts to support unusual or compelling needs (see 6.302-2);

(5) Awards made to foreign vendors for work performed outside the United States, if it is impractical to obtain CCR registration; and

(6) Micro-purchases that do not use the electronic funds transfer (EFT) method for payment and are not required to be reported (see subpart 4.6).

(b) If practical, the contracting officer shall modify the contract or agreement awarded under paragraph (a)(3) or (a)(4) of this section to require CCR registration.

(c)(1)(i) If a contractor has legally changed its business name, “doing business as” name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the contractor shall provide the responsible contracting officer a minimum of one business day’s written notification of its intention to change the name in the CCR database; comply with the requirements of Subpart 42.12; and agree in writing to the timeline and procedures specified by the responsible contracting officer. The contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the contractor fails to comply with the requirements of paragraph (g)(1)(i) of the clause at 52.204-7, Central Contractor Registration, or fails to perform the agreement at 52.204-7(g)(1)(i)(C), and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the contractor to be other than the contractor indicated in the contract will be considered to be incorrect information within the meaning of the “Suspension of Payment” paragraph of the EFT clause of the contract.

(2) The contractor shall not change the name or address for electronic funds transfer payments (EFT) or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see subpart 32.8, Assignment of Claims).

4.1103

(3) Assignees shall be separately registered in the CCR database. Information provided to the contractor's CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of the contract.

[48 FR 42113, Sept. 19, 1983, as amended at 43586, July 27, 2005]

4.1103 Procedures.

(a) Unless the acquisition is exempt under 4.1102, the contracting officer—

(1) Shall verify that the prospective contractor is registered in the CCR database (see paragraph (b) of this section) before awarding a contract or agreement. Contracting officers are encouraged to check the CCR early in the acquisition process, after the competitive range has been established, and then communicate to the unregistered offerors that they must register;

(2) Should use the DUNS number or, if applicable, the DUNS+4 number, to verify registration—

(i) Via the Internet at <http://www.ccr.gov>;

(ii) By calling toll-free: 1-888-227-2423, commercial: (269) 961-5757, or Defense Switched Network (DSN) (used at certain Department of Defense locations): 932-5757; or

(iii) As otherwise provided by agency procedures; and

(3) Need not verify registration before placing an order or call if the contract or agreement includes the clause at 52.204-7, or 52.212-4(t), or a similar agency clause.

(b) If the contracting officer, when awarding a contract or agreement, determines that a prospective contractor is not registered in the CCR database and an exception to the registration requirements for the award does not apply (see 4.1102), the contracting officer shall—

(1) If the needs of the requiring activity allow for a delay, make award after the apparently successful offeror has registered in the CCR database. The contracting officer shall advise the offeror of the number of days it will be allowed to become registered. If the offeror does not become registered by the

48 CFR Ch. 1 (10-1-07 Edition)

required date, the contracting officer shall award to the next otherwise successful registered offeror following the same procedures (*i.e.*, if the next apparently successful offeror is not registered, the contracting officer shall advise the offeror of the number of days it will be allowed to become registered, etc.); or

(2) If the needs of the requiring activity do not allow for a delay, proceed to award to the next otherwise successful registered offeror, provided that written approval is obtained at one level above the contracting officer.

(c) Agencies shall protect against improper disclosure of contractor CCR information.

(d) The contracting officer shall, on contractual documents transmitted to the payment office, provide the DUNS number, or, if applicable, the DUNS+4, in accordance with agency procedures.

4.1200 Scope.

This subpart prescribes policies and procedures for requiring submission and maintenance of representations and certifications via the Online Representations and Certifications Application (ORCA) to—

4.1201 Policy.

(a) Prospective contractors shall complete electronic annual representations and certifications at <http://orca.bpn.gov> in conjunction with required registration in the Central Contractor Registration (CCR) database (see FAR 4.1102).

(b)(1) Prospective contractors shall update the representations and certifications submitted to ORCA as necessary, but at least annually, to ensure they are kept current, accurate, and complete. (2) When the conditions in paragraph (b) of the clause at 52.219-28, Post-Award Small Business Program Rerepresentation, apply, contractors that represented they were small businesses prior to award of a contract must update the representations and certifications in ORCA as directed by the clause. Contractors that represented they were other than small businesses prior to award of a contract may update the representations and certifications in ORCA as directed by the clause, if their size status has changed since contract award.

(c) Data in ORCA is archived and is electronically retrievable. Therefore, when a prospective contractor has completed representations and certifications electronically via ORCA, the contracting officer must reference the date of ORCA verification in the contract file, or include a paper copy of the electronically-submitted representations and certifications in the file. Either of these actions satisfies contract file documentation requirements of 4.803(a)(11). However, if an offeror identifies changes to ORCA data pursuant to the FAR provisions at 52.204-8(c) or 52.212-3(k), the contracting officer must include a copy of the changes in the contract file.
